

The 2012 Hôtel de Glace of Québec A must-see attraction this winter!

Québec, December 7th, 2011 – The Hôtel de Glace is proud to announce the new thematic of its 2012 program of activities. This educational and entertaining program combines art, culture and history. The 2012 season of the Hôtel de Glace promises you amazing discoveries and lots of fun. The Hôtel de Glace will be open from January 6th until March 25th, 2012.

The 2012 theme: The Northern Québec

“The Northern Québec is far from being a vast desert region since it has been inhabited for centuries. The territory defines the culture and the identity through which men and women perceive their world. This year, the design of the Hôtel de Glace will communicate the art, culture, knowledge and values of the First Nations.” says Serge Péloquin, Artistic Director at the Hôtel de Glace.

A rich and diversified program of activities

The First Nations of Northern Québec

“We can define the Northern Québec by its territories and its biodiversity but also by the people who have been living there for millennia. So it is with enthusiasm that the Hôtel de Glace is teaming up with the Québec region and the Huron-wendat Nation, as an official partner, to welcome the First Nations of Northern Québec. This year, the Hôtel de Glace will be a meeting point between the visitors and the First Nations.” explains Jacques Desbois, CEO of the Hôtel de Glace since its beginning in 2001.

This season, three weekends of discoveries around the First Nations of Northern Québec are planned. Inuits, Cris, Innus and Wendats as the host Nation, will promote their communities through various activities and demonstrations. Game tasting, artistic performances, traditional Native camps and local initiative of durable development are a few activities that will be offered during these cultural and enlightening rendez-vous.

New “Winter Pleasures” Family Program

This season, new outdoor activities for families will be available on site. Two major projects will be launched this winter: the realization of an ice rink of 40-ft in diameter and the creation of the longest covered slide completely made of ice and snow.
